

North Central West Virginia CFC Privacy Policy

Thank you for visiting the North Central West Virginia Combined Federal Campaign's website and reviewing our privacy policy. We will collect no personal information about you when you visit our website unless you choose to provide that information to us.

Here is how we handle information about your visit to our website:

Information Collected and Stored Automatically

If you do nothing during your visit but browse through the website, read pages, or download information, we will gather and store certain information about your visit automatically. This information does not identify you personally. We automatically collect and store only the following information about your visit:

1. The Internet domain (for example, "youragency.com" if you connect from a government domain, "yourschool.edu" if you connect from a university's domain, or "xcompany.com" if you use a private Internet access account) and IP address (an IP address is a number that is automatically assigned to your computer whenever you are surfing the Web) from which you access our website;
2. The type of browser used to access our site;
3. The date and time you access our site;
4. The pages you visit; and
5. If you linked to our website from another website, the address of that website.

We use this information to help us make our site more useful to visitors to learn about the number of visitors to our site and the types of technology our visitors use. We do not track or record information about individuals and their visits. We do not enable "cookies." (A "cookie" is a file placed on your hard drive by a website that allows it to monitor your use of the site.)

Links to Other Sites

Our website has links to the Office of Personnel Management. We also link to other organizations' websites listed in the CFC brochure. This does not constitute an endorsement of their policies or products. Once you link to another site, you are subject to the privacy policy of the new site.

Site Security

Our network uses a password protected system to prevent unauthorized attempts to upload or change information, or otherwise cause damage.
